SommerWende**

Summer of course is a nice time to take vacation and go on a trip, visit new places, admire historical sights, explore local cuisine, and go to a museum! That's why today Allegra gladly welcomes you to #AVMoFA - Allegra's Virtual Museum of Obscure Fieldwork Artefacts - to witness the grand opening of a personal exhibition *Die SommerWende* that presents 22 works by [Axel Schön](#). The photos stem from different years, within the 90's. All from the former Soviet Union, the photos were taken under different circumstances. They are both in color and

black-and-white and they all depict summer with expressive vividness.
